3RD DEATH ANNIVERSARY **AGUSTO ANTAO**

*Our lives go on without you
But nothing is the same
We have to hide our heartache
When someone speaks your name
Sad are the hearts that love you
Silent are the tears that fall
Living without you
is the hardest part of all
You did so many things for us
Your heart was so kind and true
And when we needed someone
We could always count on you
The special years will not return
When we are all together
But with the love in our hearts
You walk with us forever*

There will be an Eucharistic celebration
for the soul of our beloved Augusto Antao
on Thursday 9th March, at 8:15 am
at Chandor Church
followed by prayers at the grave.

A tribute of love from:
Wife: Florentina (Filu) Antao
Children: Sonia/Sanjay Andrade,
Jolister, Ariestaea Antao & Fly.

ST JOSEPH THE RIGHTEOUS MAN

- Brenda Savio D'Silva
Culsabhat

Saint Joseph was a carpenter and foster father of Jesus. Despite his humble work and means, Joseph came from a royal lineage. Indeed the angel who first tells Joseph about Jesus greets him as 'Son of David' a royal title used also for Jesus.

Joseph was a compassionate caring man and when he discovered Mary was pregnant after they were betrothed he wanted to leave her quietly but the angel of the Lord appeared to him in a dream and told him, 'Joseph, son of David, do not be afraid to take Mary home as your wife because what is conceived in her is from the Holy Spirit. She will give birth to a son and you are to give him the name Jesus, because he will save his people from their sins.' He did as the Angel told him and took Mary as his wife. (Matthew 1:19:25)

When the angel came again to tell him, his family was in danger, he immediately left everything he owned and fled to Egypt with Mary and baby Jesus. He waited in Egypt without question until the angel told him it was safe to go back. (Matthew 2:13-23). His one concern was the safety and protection of Jesus.

We celebrate the feast of Saint Joseph on March 19th and Saint Joseph the worker on May 1st. St. Joseph is the Patron Saint of the Universal Church, unborn children, families, fathers, workers, travelers, immigrants, house sellers and buyers and a happy death. A truly just and righteous man.

Greener School, under the thematic area of 'sustainability and waste'

With the vision of St. Joseph's Educational Institute, **To develop every child into a humane human being**, the Manager, Rev. Fr. Jean D Cruz and Headmistress, Mrs. Ciete Da Cunha e Mello, strives hard to motivate, create awareness and organize activities under the Earthian theme in making the school take a step further towards becoming a zero waste Institute. The Institute also makes attempts to collaborate with the village panchayat and other local bodies in clearing E waste from the villagers of Chandor every year.

KIDNEY DISEASE

- Dr. Fiona Fernandes
Cotta

The world Kidney Day is celebrated on 9th March. This year (2023) the theme is 'Kidney Health for All'. Kidneys are the excretory organs of our body removing waste and extra water to make urine. Due to rising kidney infections, let us be aware of some causes which are not only external but also internal.

Every disease has a corresponding emotional conflict, nothing external can cause you disease, it must start primarily with your thought process which is again subjective. Therefore, we have a primary cause (emotional conflict) and a secondary which comprises of your lifestyle, eating habits and your associated health issues like diabetes and hypertension.

The primary causes are: Existence conflict, refugee conflict and abandonment conflict. These very words explain, just to cite a few examples of each conflict.

- a) Existence conflict: My life is at stake, maybe in a diagnosis which is made in a terminal disease (called as diagnosis shock), being in an ambulance, in a hospital where no one cares. It can also relate to one's livelihood where the feeling is I have lost everything at work, financial loss, loss of a home or a person who provided security economically and emotionally.
- b) Refugee conflict: uprooted, in exile, unexpected change of neighbourhood, school, being forced to flee from one's home or homeland.
- c) Abandonment conflict: a forsaken feeling, being opposed by everyone, being neglected, rejected.

The most common encountered kidney problems are

- 1. Kidney stones
- 2. Urinary infections
- 3. Chronic kidney failure
- 4. Polycystic kidney diseases
- 5. Nephrotic syndrome.

Kidney diseases are silent killers which can largely affect your quality of life, these are some ways to reduce risk of developing kidney disease.

- I. Keep fit and active
- ii. Healthy diet where your body weight should be in check, also a balance amount of salt should be consumed, avoiding canned food...chips...salted meats like bacon.
- iii. Check and control your blood sugar; once you're middle age, its important to check your blood sugar and control it as this is a cause for silent damage.
- iv. Check and control your blood pressure especially if associated with blood sugar and heart disease.
- v. Appropriate fluid intake; the right level of fluid intake depends on your exercise, climate, health condition, pregnancy and lactation.
- vi. Smoking slows the flow of blood to the kidneys decreasing the functioning.
- vii. Don't take anti-inflammatory, pain killers over the counter.
- viii. Get your kidney functions checked like urea...creatine, if you have diabetes, hypertension, obesity and family history of kidney disease.

Having half a lemon in a cup of water helps prevent formation of kidney stones.
